## ELECTRICAL CIVIL MECHANICAL WATER OIL & GAS ENGINEERING CONTRACTORS

### OUR SERVICES INCLUDE:

- We handle engineering procurement construction & commissioning (EPCC) projects
- HV and LV electrical panel design and building
- Oil &gas production optimization and engineering services for CPPS, CPFS and crude oil wells (electrical, mechanicals (static and rotary), instrumentation, water treatment plants, etc.)
- Environmental engineering services
- Electrical engineering and construction management powerline construction transformer & switchgear installation/commissioning, overhead and underground cable installation & termination. Etc.)
- Hydro power plant support services
- Civil works mechanical and manufacturing
- Complex it and computer networking solutions
- Solar energy engineering
- Water system engineering
- Supply of general engineering & construction materials

## WHO WE ARE

Levor Energy Technologies (U) Limited is one of the leading engineering and construction firm registered in Uganda by law we are civil, electrical, mechanical water oil & gas engineering contractors.

We are specialized in executing electrical, civil, mechanical, water oil and gas engineering projects with a history and track record of successfully completed projects in Uganda and South Sudan

We have a team of innovative ambitious and talented engineers, technicians, foreman and managers within the ability to execute engineering projects on time while focusing on timely delivery, quality and safety

We have mastered the art of EPCC projects in the Oil and Gas sector with successful projects completed in South Sudan (2021) block 5A Thrajath oil field operated by SUDD petroleum operating company Ltd (SPOC) in unity state, where we reinstated the electrical power system which included substations, overhead powerlines, transformers, motor control centers and 300,000 liters water treatment plant (RO water) which had spent more than seven years out of use due to civil war in South Sudan.
